

FOREWORD

This handbook is distributed for the purpose of providing a ready source of reference and information on philosophy, policies, rules and regulations of the NHIAA. It contains the Constitution, By-Laws, regulations, eligibility rules, the system of classification of schools and names of officers.

The basis for the existence of the NHIAA is the contribution that it makes in helping the interscholastic athletic program of member schools become an integral and important factor in the total educational development of their students. This handbook is a guide which will help to bring about the realization and understanding of this aim.

When problems or questions arise in connection with interscholastic athletic programs, school personnel should consult this handbook and the NHIAA office. The official point of contact with the NHIAA is the school principal. No requests from anyone except the principal (and if so authorized the athletic administrator) can be recognized by the NHIAA staff. Periodically, changes may occur during the school year. These are shared with principals and athletic directors, since changes will supersede the printed contents of this handbook.

THE NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

The National Federation was organized in 1920 and now consists of 50 member state high school associations and the District of Columbia. The Canadian Federation and 9 Canadian provinces are presently affiliated. New Hampshire was admitted in 1945.

These associations have united to secure the benefits of cooperative action which eliminates unnecessary duplication of work and which increases efficiency through the pooling and coordinating of efforts of all who are engaged in high school athletic activities.

The legislative body is the **National Council** made up of one representative from each member state association. Such representative must be an officer or a member of his/her state board of control. The Board of Directors shall be comprised of 12 members elected by the National Council from the membership of the governing boards or chief executive officers of the voting member state associations. (a) One (1) representative shall be elected from each of the eight (8) sections established by the Board of Directors. (b) In addition, four (4) at-large representatives shall be elected from voting member state association governing boards, one (1) from each combination of two sections as follows: Section 1 and 4; Sections 2 and 6; Sections 3 and 7; Sections 5 and 8.

The growth in size and influence of the state high school associations and their National Federation ensures some degree of teamwork on the part of 19,000 high schools and this teamwork has enabled them to formulate policies and plans for improving high school athletic conditions and to make these plans function. The National Federation probably represents the largest closely-knit organized body of athletes in the world. The opportunities for contributing to the welfare of the high school athletic program are unlimited.

The National Federation was organized primarily to secure proper adherence to the eligibility rules of the various state associations in interstate contests and meets. As the prestige of the national organization grew, a program for the sanctioning of interstate meets was developed. This later led to definite action relative to national and sectional athletic events. Meets or tournaments, which involve the schools of more than one state, are sanctioned in accordance with definite limitations in connection with the distance to be traveled, the type of sponsor, the amount of school time involved, and extent to which such events interfere with smaller meets which ensure participation by greater numbers of those who need the training. The scope of the National Federation work has broadened so that all high school athletic and many non-athletic groups profit through an exchange of experiences and a pooling of interests.

The activities of the National Federation are based on the belief that strong state and national high school athletic organizations are necessary to protect the athletic interests of the high schools, to promote an ever increasing growth of a type of interscholastic athletics which is educational in both objective and method and which can be justified as an integral part of the high school curriculum, and to protect high school students from exploitation for purposes having no educational implications. To accomplish these things, it is necessary for educators to exercise teamwork on a nationwide scale.

HISTORICAL OUTLINE Of the Development of the New Hampshire Interscholastic Athletic Association

Prior to 1947 the state athletic program was administered by the New Hampshire Secondary School Principals' Association. In 1947 the New Hampshire State Athletic Association was formed. In 1948 the name was changed to the New Hampshire Interscholastic Athletic Association. The primary reason for the creation of this organization was to establish the state athletic programs as an integral part of the entire school curriculum. It was believed that athletics, properly directed and administered on a state-wide basis, has a contribution to make to the educational program of schools. The Association was incorporated in 1951. In 1953 a full-time office was established with a full-time Executive Director.

Since 1947 the NHIAA has made significant and ongoing progress in organizing, supervising and coordinating a state wide athletic program. Superintendents, principals, athletic directors, coaches, state school board association members, and State Department of Education personnel have served on the Council, the governing body of the organization. The administration of the school based interscholastic athletic program has been carried out by committees chosen from school and non-school people throughout the state.

In addition to the administration of athletics, the Association has formulated standards to ensure that competition is equalized. Regulations have been adopted to meet changing times and conditions. Changes, when necessary, are implemented by constitutional or By-Law amendment.

The New Hampshire Interscholastic Athletic Association is a voluntary organization operated by a continually changing committee structure and an athletic council. Committee membership is voluntary. Positions on the Council are rotated over a period of years giving the opportunity for all viewpoints to be considered.

By this process, interscholastic athletics takes its proper place in the entire educational program of the schools and makes a great contribution to the development of New Hampshire youth.

Guidelines and Expectations In Administration of the Interscholastic Athletic Program

NHIAA CODE OF ETHICS

Definition of Sportsmanship

The ideals of good sportsmanship, ethical behavior and integrity permeate our culture. The values of good citizenship and high behavioral standards apply equally to all activity disciplines. In perception and practice, good sportsmanship shall be defined as those qualities of behavior, which are characterized, by generosity and genuine concern for others.

An awareness is expected of the impact of an individual's influence on the behavior of others. Good sportsmanship is viewed as a concrete measure of the understanding and commitment to fair play, ethical behavior and integrity.

In order to promote desirable behavior and enhance the overall quality of secondary school athletic programs for which the NHIAA has assumed responsibility, the following Code of Ethics is in effect:

It is the duty of all concerned with secondary school athletic programs to...

1. Cultivate awareness that participation in high school athletics is part of the total educational experience.
2. Emphasize the proper ideals of sportsmanship, ethical conduct and fair play as they relate to the lifetime impact on the participants and spectators.
3. Develop an awareness and understanding of all rules and guidelines governing competition, both in letter and intent, and to comply with them in all activities.
4. Recognize that the purpose of athletics in school programs is to develop and promote the physical, mental, moral, social and emotional well-being of individual participants.
5. Avoid any practice or technique which would endanger the present or future welfare or safety of a participant.
6. Avoid practices which force students to specialize, or which restrict them from participation in a variety of athletics.
7. Refrain from publically making disparaging remarks to and about opponents, officials, coaches, or spectators or the NHIAA in any aspect of school athletics. (CM 5.2018)
8. Encourage the development of proper health habits and vigorously discourage the use of chemicals, including alcohol and tobacco.
9. Exemplify proper self-control at all times and accept adverse decisions without public display of emotion or dissatisfaction.
10. Encourage everyone to judge the true success of the athletic program on the basis of the attitude of the participants and spectators rather than on the basis of a win or loss.
11. Treat opposing team members and officials respectfully and encourage behavior, which will create positive relationships between schools.
